

PEOPLE

On the occasion of the International Day of People with Disabilities, some contemporary Piedmontese artists have created works worth being admired for their cultural, social and artistic significance. The works are chosen from the project "Never seen" of Turin City Archive and from workshops of day centers and Piedmontese communities for people with disabilities.

The title of the exhibition intentionally emphasizes the human and artistic qualities of the people involved. The common thread that unites the authors is the representation of the human figure in its relations with the world.

The works are richly colored or strictly in black and white.

This Collective aims to focus on the possibility of dreaming and imagining.
